Individual dimension with weightings:

- Volume Signings with As-sold Margin/Consult Modifier: 80%
- Consult Billable Utilization: 20%

Target Incentive: 100%

OTHER IMPORTANT INFORMATION

General Information:

- By accepting this Incentive Plan Letter, you acknowledge that you have read and understood the terms of the Plan, including the Plan details, and the Global Sales Incentives (“GSI”) Policies on the Kyndryl Worldwide Incentives Workplace, and you agree with the conditions outlined in this “Other Important Information” document.
- Incentive Plan components, measurements and other related details regarding the Incentive Plan assigned to you are available on the Kyndryl Incentives Workplace under the applicable Fiscal Year Sales Plan Design relevant to your sales role. You can access this site via the following link: <https://kyndryl.sharepoint.com/sites/Incentives-Workplace>. In addition to the Sales Plan Design, the Kyndryl Incentives Workplace provides access to other relevant information, such as the Global Sales Incentives (GSI) Policies, guidelines, and additional incentive programs that may apply to your role. The GSI Policies published on the Kyndryl Incentives Workplace are hereby incorporated by reference into this Incentive Plan Letter.
- The Incentive Plan information contained on the Kyndryl Worldwide Incentives Workplace plus the information in this Incentive Plan Letter are together referred to as either the “Plan” or the “Incentive Plan.”
- Participation in the Kyndryl Incentive Plan is determined on a Plan-period to Plan-period basis and is dependent upon eligibility rules and Kyndryl’s overall strategy for each Plan period.

Incentive Plan Letter Required:

- Without an accepted Incentive Plan Letter in Kyndryl’s SAP Incentives System, you are not eligible to receive any incentive payments. If you do not accept the Incentive Plan Letter that is offered to you, Kyndryl is not obligated to offer you an alternative Incentive Plan Letter
- The Incentive Plan Letter offered to you needs to be accepted within 30 days from date of offer so that this is reflected accurately in the regular salary and for timely commission payments. If not accepted within 30 days, it is subject to cancellation. During the course of the plan cycle Kyndryl could change quotas as provided in the right to modify or cancel paragraph below. If not accepted the new letter will be cancelled and prior letter will end earlier to the extent permitted by applicable law.

Right to Modify or Cancel:

- Kyndryl reserves the right to the extent permitted by applicable law (i) to adjust the Plan terms at any time, including, but not limited to, changes to incentives performance objectives, targets, quotas, plan type, pay mix, plan measures or weightings, on-target earnings (“OTE”), assigned territories or account opportunities, applicable incentive payment rates or similar earnings opportunities, or (ii) to partially or fully modify, replace or cancel the Plan, for any individual or group of individuals, including withdrawing an offered or accepted Incentive Plan Letter.
- If a revised Incentive Plan Letter is issued in the SAP Incentives System, you must re-accept the updated version to remain eligible for incentive payments. If more than one Incentive Plan Letter has been issued, only the most recently issued Incentive Plan Letter is effective, even if the SAP Incentives System indicates that more than one Incentive Plan Letter has been accepted or does not indicate that prior Incentive Plan Letter(s) have been cancelled. The effective date of the new Incentive Plan Letter will vary depending on local laws and will always start on the 1st day of the calendar month. See above paragraph titled “Incentive Plan Letter Required.”
- The terms of your Incentive Plan may only be modified through issuance and acceptance of a new Incentive Plan Letter. The terms of your Incentive Plan may not be modified (either orally or in writing) by any Kyndryl employee, including your management team, without a newly issued and accepted Incentive Plan Letter.

Local Legal Requirement and Payroll contingencies:

- In case of a conflict between the information in the Plan and applicable law, the applicable legal requirement will prevail. In the event any provision of this Incentive Plan Letter is held to be invalid or unenforceable, the remaining provisions of this Incentive Plan Letter remain in full force and effect. Processing of payments are subject to local payroll schedules and operational payroll contingencies.

Earnings:

- Incentive payments are released based on achievements after the measurement of complete business results as long as all payment requirements have been met, including: (1) you have complied with the Incentive Plan and (2) you have complied with the Kyndryl Code of Conduct.
- Incentive payments (even if paid) are not considered earned until complete business results have been measured, final incentive calculations in accordance with the Plan are complete, and any adjustments allowed in this Plan are made. Once the commission amount is determined by the Incentives team, it will be sent to Payroll for payment in the next available Payroll window according to each country’s Payroll Calendar.

Progress Reports:

- Any periodic information regarding Plan-to-Date achievement that may be made available to you before the completion of the full-Plan period and final calculation of payments is provided for informational purposes only and does not constitute a promise by Kyndryl to make any specific distributions to you or to any other employee.

Incentive Payments:

- **Management-Assessed:**

If the Plan has management assessment components (e.g., Scorecard component), Kyndryl Sales Management will determine, based on objective criteria, the amount of your incentive payment, if any, based on assessment of your contribution to the closing of the deal or towards the business results of a team, relative to the contribution of other individuals who worked on that deal or team and who may also receive a portion of the available payout for that deal or team results.

- **Individual Quota Plan:**

If the Plan is an Individual Quota Plan, incentive payments are based on the incentives Plan, quota/objectives, territory & measurement definition and weighting of measurements set forth in the Incentive Plan Letter.

- **Adjustments to Earnings:**

- o Subject to local laws, Kyndryl reserves the right to review and in its sole discretion adjust (including after payments are initially made but are deemed later to have been not earned under the plan) the incentive achievement and/or payments:
- o as a result of errors in the measurement of achievement or the calculation of payments, including errors in the creation or communication of incentives objectives, targets, and quotas. Corrections will be made when the error is discovered,
- o if the customer has not paid the invoiced amounts for a sales or services transaction related to your incentive achievement as they become due , or
- o if the gross profit expected to be achieved on the transactions comprising your incentive achievement as calculated within the first year following the signing is materially lower than the gross profit used to calculate your incentive achievement and such outcome could have been avoided during the negotiation of the contract, or
- o If the contract is terminated or the scope is materially decreased within the first year following the signings and such an outcome could have been avoided during the negotiation of the contract.

- **Payouts Above 300%:**

If you exceed your target incentive and the payout would be above 300% of your target incentive for a given component, such payout is subject to review and adjustment in Kyndryl's sole discretion in certain circumstances including, but not limited to, the following:

- o Quota was set too low in relation to the true opportunity for your territory; or
- o The high achievement is a result of a incentives planning design error or oversight; or
- o Your contribution to the incentives achievement in your territory was limited and the primary contribution was made by others; or
- o The profitability of one or more deals in your territory is below target, or the overall performance of your business unit is below Kyndryl's objectives; or
- o You were not on Plan for the full Plan period, which may have given you a disproportionate benefit of payout accelerators.

Debit Balance Recovery:

- By accepting this Incentive Plan Letter, to the extent permitted by applicable law, you grant advanced consent and authorize Kyndryl to deduct the amount of any debit balance from any future incentive payments due to you. If such consent is legally valid and a deduction does not recover the full amount of the debit balance, you may be required to send a reimbursement for any remaining debit balance. In addition, if you end one Plan and begin a new Plan, any debit balance that might exist from the ended Plan may be either reimbursed or transferred to the new Plan to be netted against payment from the new Plan following Incentives guidelines. If you leave Kyndryl, you are required to repay this debit balance.

Leaving the Plan Early:

- **Revenue and Profit Components Calculation:** If for any reason (including leaving Kyndryl's employment) you leave your currently assigned Incentive Plan before the last day of its full-Plan period, your final achievement on the Revenue and Profit components for that Plan will be based on business results credited to you as of the last day of the last full-month you were on that Plan. Your achievement will be measured against the pro-rated quota for your time on Plan. The resulting attainment percentage will be applied to your Target Incentive as pro-rated in relation to the number of full months you were on this Plan. If you remain with Kyndryl in a non-incentives role, your future Kyndryl compensation will be determined by the terms of your new role.
- **Signings Component Calculation:** If for any reason (including leaving Kyndryl employment) you leave your currently assigned Incentive Plan before the last day of its full-Plan period, your final achievement on the Signings component for that Plan will be based on business results credited to you as of the last day of the last full-month you were on that Plan. Only those sales or services transaction which are signed and

included in Kyndryl's signings backlog on or before such date will count toward your achievement on the Signings component. Your achievement will be measured against the full period quota, and the resulting attainment percentage will be applied to your Target Incentive for the full period. The final incentive payments will be made according to the normal payment schedule for that Plan. If you remain with Kyndryl in a non-incentives' role, your future Kyndryl compensation will be determined by the terms of your new role.

Notice:

- **Base Pay:** Your salary base pay will be calculated by your country payroll in local currency using the OTE and pay mix factors associated with your accepted Incentive Plan letter. To see your base pay in local currency, refer to the payment statement prepared by Kyndryl payroll. For executive level sellers on Plan, refer to your personal compensation statement in executive portal for details on base pay and target incentive.
- **Rounding of Decimals:** How your country payroll treats decimals (e.g., includes, excludes, or rounds) may result in a small difference between the amount appearing on the payment statement prepared by Kyndryl payroll and the commission statement prepared by SAP Incentives System.

END OF OTHER IMPORTANT INFORMATION

I affirm that I have read, acknowledge, and accept all of the contents of this Incentive Plan Letter (IPL), including but not limited to my IPL details, my territory, and the details provided in the "Other Important Information" section (referred to as the "Additional Information" section for sellers located in Germany) of this IPL and disclaimer and agree to it.
